—Meico range from Quikpak ... July 51
Extruder—Farrel Bridge MVX ... June 61
Injection Machine — Clayton Goodfellow CG-10V ... Apr 55
—REP 712 range ... Sept 93
Mill—Repiquet two roll ... Jan 58
—Farrel Bridge Compact two roll ... Apr 54
—British Rema Chrispro Jetmill ... May 62
—Farrel Bridge laboratory model ... Oct 70
Mixer—Rutital Monomix ... Sept 27
—Manufactures directory . Sept 32
—Lewis Molding Machinery static homogeniser ... Nov 54
Mixer/calender—Tempar Engineering lab series ... June 61
Tyre machinery — Hardaker Buffmaster X buffer ... Mar 58
—Barwell Pressurebuilder tread extruder ... Mar 58
—Fortuna - Werke C470 tread splitter ... June 62

MATERIALS
(See also exhibition preview and reports)

Accelerators—new MBT derivatives ... Mar 41
Acrylic rubbers — improvements ... June 42
Acrylics—suppliers list ... Apr 25
Antimony oxide — William Blythe WS and VS grades ... Sept 94
Anti-oxidants — Metalgesellschaft Naftonox ... Jan 62
Anti-tack agents — Stephenson Bros Albon T55 ... Apr 60
Azodicarbonamide—as a vulcaniser ... Apr 33
Bacteria - proof additive — Givaudan Giv-Gard DXN . Apr 59
Bonding agents—Anchor Ty-Ply NI, Ty-Ply TL ... Mar 59
—Compounding Ingredients sell Thioxin ... July 54
—suppliers list ... Dec 32
Butadiene propylene — alternating co-polymers ... Nov 40
Butyl rubbers—in inner tubes ... May 41
—antioxidant research ... Oct 42
—halogenated for inner tubes ... Oct 42
—better formulations ... Dec 40
Carbon black — Degussa UD20/P200, UL20/t pastes ... June 62
Chloroprene — bonding to nylon 66 ... Sept 60
CIS-polyisoprene—nature and properties of links ... Jan 35
—modified with hydroxyl . May 41
—better curing ... May 42
—changes through injection ... Dec 4
Conductive rubbers — Rehan Plastiks silicone rubber ... Sept 80
Corrosion resistance — Tampimex Shieldcote 421 lining material ... Nov 56
CPE — as a cross-linked elastomer ... July 36
Curing agents — Du Pont Viton ... Jan 62
EDMA — produced by Degussa ... July 54
EPDM—aqueous dispersions ... Jan 35
—price too low says DSM ... June 6
Epichlorohydrins — Suppliers ... Apr 25
Epoxy — Industrial Science pre-formed pellets ... Nov 56
EPM—vulcanising with hexachloroethane ... Jan 38
Ester nitriles—developments ... Dec 40
EVA—suppliers ... Apr 25
Fillers (silica) — surface treatment ... Mar 40
Fluoroelastomers—world market ... Jan 14
—Du Pont Viton additions ... Jan 59
—suppliers list ... Apr 25
—reinforcing fillers ... Nov 38
—plasticisers ... Dec 40
Guayule — interest grows in Americas ... Nov 23
Liquid elastomers—suppliers ... Apr 25
Lubricants — Dow Corning Molykote 321R ... Jan 62
—Goldschmidt Tego 1145 mandrel lubricant ... Mar 59
— Chemplast Fluoroglide RB ... May 64
Natural rubber—sources ... Jan 14
—ozone resistance ... June 43
—modification receives a new impetus ... Oct 13
Neoprene—Du Pont GW .... Dec 53
Nitriles — water and steam relaxation effects ... July 37
—peroxide vulcanisation . Oct 42
Ozone resistance—new coatings ... Nov 40
Polybutadiene—liquid as a plasticiser ... Apr 30
Polyether ester elastomer—Akzo Chemie Twinpol .... Sept 94
Polyethylene, chlorinated — suppliers ... May 60
Polyethylene terephthalate—adhesion to rubber ... July 36
Polyethyleneimine — as an additive ... Apr 30, 33
Polyisobutylene—suppliers . Apr 25
Polyisoprene—suppliers .... May 60
Polymercaptan—Phillips PM polymer ... Mar 59
Polysulphides—suppliers .... Apr 25
Polyurethane elastomers — tropical weathering Mar 13, Apr 34
—abrasion tests ... Mar 40
Powdered rubbers — Rubber Powders and Compounds profile ... May 45
—as production cost cutter ... Nov 10
Processing aids — Du Pont VPA ... Jan 62
—Fuller Separext 502, Lunacerin H150 ... Mar 59
—Sun Oil report on oils for neoprene T grades . Sept 94
—Saline Luneberk und Chemische Fabrik MgO/ZnO system ... Oct 71
Propylene oxide rubber—improves properties of GP rubber ... Sept 60
Release agents — Donald Macpherson Macsil silicones ... July 54
— Goldschmidt Tegosil Spray Extra, Trennspray Tego TP Extra ... Oct 71
— Compounding Ingredients Esilease 400 and Cilase 1814MV ... Nov 56
Retarders—effect on vulcanisate structure ... Nov 38
—research into combinations ... Dec 41
SBR—high styrene, effects of blowing agent ... Jan 35
—Polysar breakthrough ... June 20
—solvent removal ... June 43
—pre-vulcanisation cross linking for radial tyres . July 21
—styrene butadiene copolymer from Denka ... July 49
Silicone elastomers — conductive ... Apr 16
—suppliers ... Apr 25, May 60
—Emerson and Cuming ... Apr 59
—Emerson and Cuming castable white RTV ... Oct 71
SMR—new grades ... July 8
Softeners — Faime Resin hydrocarbons ... June 62
Soling elastomer—Harefield Rubber crepe-like elastomer ... Oct 71
Solution-polymerised rubbers —a review ... June 42
Solvents — Esso Chemical Exsol D ... May 64
Speciality elastomers — the way ahead ... Apr 15
—suppliers list .... Apr 25, May 60
Standards—Polymer Laboratories monodisperse polymer weight standards ... Mar 59
Thermoplastic rubbers—suppliers ... Apr 26, May 60
Tyre compound—AMF Voit XT99 winter compound ... Dec 9
Urethanes—Irathane 2600 ... Jan 62
—suppliers ... Apr 26
—Dow Chemical Instant Set Polymer rigid system ... May 64

PROCESSING

Temperature control feature ... Jan 17
—a science and an art ... Jan 17
—problem and solution analysed ... Jan 20
—deep probes and computers for better vulcanisation ... Jan 23
—automatic control is important ... Mar 37
Nomographs for determining conveyor belt load capacities ... Mar 34
Effects of temperature on black filled rubbers ... Mar 41
Mercaptans and degradation of rubbers ... May 41
Effect of swelling compressed rubbers ... May 42
Cis - polyisoprene — better curing ... May 42
Blending in specialities for specific improvements ... June 28
Pre-vulcanisation crosslinking makes SBR radials possible ... July 21
Effect of heat and gamma radiation ... July 37
Kevlar leader cloth cuts coating costs ... July 54
Mixing feature ... Sept 15
—optimisation of mixing . Sept 15
—cleaning up the mill room will pay dividends Sept 22
—new materials bring in fluidising mixers ... Sept 23
—Rutital Monomix cuts time and running costs Sept 23
—continuous mixing brings new look to plant economics ... Sept 28
Rubber to cord bonding reactions ... Sept 60
Blending for sidewall strength improvement ... Sept 62
Effect of changing mixer cooling rates ... Sept 62
Natural rubber modification receives a new impetus ... Oct 13
Coming to terms with microwave vulcanising ... Oct 26
Short fibre reinforcement shows great potential ... Oct 34
Non-toxic curing systems for latex ... Oct 39
Bonding — the growing science ... Dec 13
—current developments ... Dec 13
—in injection moulding . Dec 24
—agent suppliers ... Dec 32

RECLAMATION

Hewo Polymer ground tyre plan ... Mar 48
Lucas Furnace Developments —tyre incinerator ... May 7
Japanese tyre reutilisation . May 59
Scrap tyre incineration now an answer to dumping ... July 12
Adhesives from scrap tyres . July 48
Chemical bath tyre reclamation ... Sept 10
Scrap tyres used in iron foundry ... Sept 83
Crumbed scrap in road surfaces ... Sept 87
US process for using reclaim in new tyres ... Sept 87
UK future ... Oct 44
Building blocks from rubber scrap ... Dec 9
